

Holidays

In May are our holidays

We will try and experience new plays

With lots of fun and excitement

We laugh and play with delight

In a new world with my friends

Until this vacation ends

We will do lots of naughtiness

And make place for funkiness

There will be no school and no studies

I will have ice-cream with my buddies

Have cold drinks in the hot sun

At home there's no thing to learn

Holidays are the most fun days in the year

They bring no sadness and no tears
